

Local Love For Jackson

Let me introduce you to Jackson Brown who is turning 5 in February. Jackson has recently been diagnosed with ALL Leukemia at just 4 years of age.

One week after school finished, he had swollen lymph nodes on his neck. At first, the doctors thought it was a virus, but medical treatment didn't work, then they got bigger so he was admitted to Campbelltown and spent Christmas at hospital, still meds didn't work and nothing showed in his bloods, so we got referred to Randwick where he was given his diagnosis of ALL Leukemia.

Jackson has just started 1st cycle runs for 33 days and then it's reviewed again around day 33 and the next cycle is put into place. So from now till the next 8mths is his intensive part of treatment. Then they hope he can go on a tablet form for the remainder of his treatment. But really depends how he responds and if he is a Standard, medium or high-risk patient. That we won't know until we reach towards the end of the 1st cycle.

So far this brave little Jackson has been nothing but brave and amazing. Having to be up at 4.30am to be at Hospital by 7am at Randwick for treatment all because they live 9.8kms short of the accommodation help at several charity houses.

How can you help me help Jackson:

1. Donating money directly to PayPal <https://paypal.me/pools/c/81uMa6ReXr>
2. Donating supplies or items to be raffled for the Local Love For Jackson Auction Day.
3. Help me spread the word for this truest amazing cause by sharing my live video on Local Love For Jackson Facebook Page.
4. Buy tickets and attending our wonderful day.

I am so appreciative of your support and anything you can do to help me.

Kind Regards

Nicole Sargent
